LinkedIn | GitHub | LeetCode

SUMMARY

Full Stack Developer skilled in the MERN stack, with demonstrated ability to architect, build, and deploy scalable web applications using RESTful API design, object-oriented programming, and MVC architecture. Experienced in Agile workflows, CI/CD pipelines, and collaborative development using Git and GitHub. Committed to writing clean, maintainable code and delivering high-impact solutions.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, Supabase

Tools: Git, GitHub, Postman, VS Code, Vercel

Concepts: OOP, MVC Architecture, Agile, SDLC, CRUD Operations

PROJECTS

Skill Bartering Platform – Full Stack Web Application

Live | GitHub

Tech Stack: React.js, Node.js, Express.js, MySQL, Supabase, JWT, Vercel

- Spearheaded development of a production-ready peer-to-peer skill-exchange platform, managing end-to-end workflows for skill listing, discovery, and swap request processing
- Designed a normalized relational SQL schema in Supabase with 5+ tables, enforcing referential integrity across users, skills, sessions, and transaction records
- Built 15+ REST API endpoints using the Express.js framework, adhering to MVC architecture
- Secured the platform with JWT-based authentication and middleware-enforced authorization

Placement Preparation Platform – Interview Preparation Web App

Live | GitHub

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST API, Vercel

- Developed a comprehensive interview-readiness platform with 100+ curated problems spanning coding, aptitude, and technical interview categories
- Crafted a component-based UI in React.js, ensuring fully responsive layouts across devices
- Modeled MongoDB collections for users, problems, and progress tracking with complete CRUD support
- Deployed on Vercel with CI/CD integration, achieving fast load times and reliable availability

Expense Tracker – Secure REST API Backend

GitHub

Tech Stack: Node.js, Express.js, MongoDB, JWT, REST API

- Architected a secure, production-grade REST API for personal finance tracking, applying MVC design patterns
- Safeguarded routes using JWT token validation middleware for reliable session handling
- Modeled MongoDB collections for users and expense transactions with robust input validation

INTERNSHIPS

Full Stack Developer Intern – Innovalley Services Pvt. Ltd.

Mar 2026 – Jun 2026

[View Certificate](#)

- Gained hands-on experience in modern web application development using the MERN stack
- Worked with PostgreSQL databases, designing schemas and writing queries for backend logic
- Developed and integrated RESTful APIs to connect frontend interfaces with backend services

Software Development Intern – APSSDC

2025

[View Certificate](#)

- Delivered 3+ real-world mini projects, gaining exposure to the full SDLC from requirements to deployment
- Engineered responsive web interfaces using HTML5, CSS3, and JavaScript with Express.js backend logic
- Streamlined team workflows using Git branching strategies and GitHub pull-request reviews in Agile teams

EDUCATION

Anil Neerukonda Institute of Technology and Sciences

2023 – 2027

B.Tech in Information Technology

CGPA: 8.85

Tirumala Junior College, Rajahmundry

2021 – 2023

Intermediate (BIEAP)

971/1000

Vasavi Ideal Public School

2021

Class X (CBSE)

426/600

CERTIFICATIONS

Network Fundamentals – Infosys Springboard

[View Certificate](#)

Web Development (Frontend) – Code With Swaroop

[View Certificate](#)

ACHIEVEMENTS

- Class Representative (CR) – B.Tech Information Technology, ANITS; elected to represent a batch of 60+ students
- Participant – Smart India Hackathon (SIH)
- Participant – Vibe Coding 8-Hour Hackathon

CODING PROFILES
