OBJECTIVE

Computer Science undergraduate skilled in Data Structures using Python and building web applications with Django, seeking a software development role to create efficient, scalable, and user-focused solutions

EDUCATION

CBSE 10th , SIR CR REDDY PUBLIC SCHOOL, Eluru (78.8%)	2020-21
Intermediate , Narayana Junior College, Eluru (96.7%)	2021-23
B.Tech - Data Science , Pursuing at Anil Neerukonda Institute of Technology and Sciences (CGPA: 8.27) Visakhapatnam	Expected 2027

SKILLS

Languages	Python, JavaScript, SQL, HTML, CSS
Frameworks	Django, Django REST, Bootstrap, LangChain, LangGraph, Celery
Libraries	NumPy, Pandas, jQuery, ReportLab, Pylint, Bandit, Radon
Databases	PostgreSQL, Redis
Developer Tools	GitHub, VS Code, Git, Docker, PyCharm

EXPERIENCE

Web Development Intern TEKNOV8R	May 2025 - July 2025 <i>Remote</i>
---	---------------------------------------

- Contributed to the design and development of a teen wellness mobile application, focusing on mental health, mood tracking, and positive habit building.
- Developed key core screens and user-centric features by applying creative thinking, technical aptitude, and self-learning abilities.

PROJECTS

GitGuardian AI –Agentic Code Security Review Platform	<i>Python, Django, LangGraph, OpenAI, Docker</i>
--	--

- Developed a multi-agent AI platform using LangGraph and OpenAI GPT-4o-mini to analyze GitHub repositories for security vulnerabilities, code quality, and architectural issues using Bandit, Pylint, and Radon.
- Built a Dockerized Django REST application with PostgreSQL, Celery, Redis, Gunicorn, and WhiteNoise, enabling asynchronous code analysis, automated PDF security reports, and secure production deployment.

Multi-Tenant SaaS Billing & Metering Platform	<i>Python, Django, PostgreSQL, Stripe, Docker, AWS</i>
--	--

- Developed a multi-tenant SaaS billing platform with Django and PostgreSQL, supporting subscription management, usage-based metering, automated invoicing, and tenant-isolated data architecture.
- Integrated Stripe payments, Celery, Redis, Docker, and AWS to automate billing workflows, webhook processing, CI/CD deployment, and secure production-ready infrastructure.

ACHEIVEMENTS

- Finalist, National Entrepreneurship Challenge (NEC) IIT Bombay (Role : President)
- Vice President, BizVERVE, ANITS
- President, Street Cause (NGO) ANITS
- Chief Executive Board Member , Street Cause (NGO) Visakhapatnam
